

Cheytec's *Accelerate* program guarantees signal source from multiple carriers supported by our nationwide wireless carrier and RF equipment agreements

GAIN A UNIQUE FOOTPRINT IN THE IN-BUILDING MARKETPLACE

- Cheytec's *Accelerate* is a comprehensive licensing program which includes:
 - RF equipment (baseband and radios)
 - Carrier coordination & connection to the network
 - Full product support for the duration of the license
- Our partners benefit from market development funds to build awareness, reach new customers, generate demand and extend existing resources and budget in order to grow channel sales

Together, we accelerate in-building wireless opportunities at the building owner and enterprise funded levels

JOIN OUR ACCELERATE PROGRAM AND TRANSFORM YOUR BUSINESS OPPORTUNITIES

- ***Accelerate*** the path to complete building coverage and net-new revenue
- ***Accelerate*** Wireless Carriers' acceptance of in-building LTE solutions and provision of service to customers
- ***Accelerate*** design, contracting, licensing and provisioning of complete in-building LTE solutions

HOW THE ACCELERATE PROGRAM WORKS

Cheytec's national carrier agreements, OEM relationships, a flexible real estate lease model and our ROI strategy combine for a **Reliable, Standard, Repeatable and Scalable** process:

- National carrier agreements enable us to bring **signal source** into the building
- **RF equipment licensing** of carrier approved baseband and radios
- Vetted and approved **leases** rapidly join the carriers and the building owners to enable accelerated speed to market
- Support for **Brand Standard** building owner and enterprise solutions
